Supply Carts and Supplies in COVID-19 Positive or PUI Patient Rooms

Absolute minimum supplies stored in the ICU SUPPLY CARTS (inside the room)!

Absolute minimum supplies stored inside the room of COVID and PUI patients!

- If PUI or COVID positive patient is being transferred from the ICU to another COVID unit, bag up unused supplies from the supply cart and send with the patient.
  - Wipe inside and outside of cart with Oxivir or Dispatch wipes

- If PUI or COVID Positive patient is being transferred from a COVID unit to the ICU, bag up any unused in-room supplies and send them with the patient.

- If PUI or COVID positive patient is discharged or expires in the ICU or another COVID unit
  - Unused supplies can be bagged and used for a COVID Positive patient (If patient has other isolation pathogens, items should be discarded)
  - Wipe inside and outside of cart with Oxivir or Dispatch wipes
