

The Genomic DNA test “NEXT STEPS”

1. If you would like **more information** or have concerns before getting the test, contact the Genomic Medicine Resource Center:
Email: DNATest@uvmhealth.org. or
Tel: (802) 847-8135.
2. When you feel that you have enough information and are ready to get the Genomic DNA Test done, **sign the “Clinical Genomic Testing Consent” form.** This one-page form is in the packet you received at your provider’s office.
3. Mail or carry the **signed consent form to your health care provider’s office.** They will scan it into your health record and return it to you for your records.
4. Your health care provider’s office will give you two other forms to carry to the blood draw site:
 - a Genomic DNA Test Order Form from “Invitae,” (signed by your provider) and
 - a UVM Medical Center “Alternative Laboratory” form (also signed by your provider).

Bring these forms with you when you go to get blood drawn for the test.

5. Your health care provider will enter the Test Order into your health record and their **staff will notify you when you can go to get your blood drawn.**
6. Your blood can be drawn at **any one of three sites.** You do **not** need an appointment.
 - UVM Medical Center Laboratory at 1 Timberlane Dr., South Burlington. (For South Burlington Family Medicine Patients only) Hours: Monday-Friday 7:30 am-4:00 pm (closed Saturday and Sunday)
 - UVM Medical Center Fanny Allen Campus Laboratory at 792 College Parkway, Colchester. Hours: Monday-Friday 6:30 am-6 pm (closed Saturday and Sunday)
 - UVM Medical Center Main Campus Phlebotomy at 111 Colchester Ave, ACC Building 2nd floor. Hours: Monday-Friday 6:30 am-7 pm; Saturday –Sunday 7 am-1 pm
7. The phlebotomist will draw two lavender-top tubes of blood, a total of two teaspoons. Please **REMEMBER TO BRING THE TWO FORMS** (see item 4 above) and ask the person drawing your blood to **send the forms to the laboratory with the sample.**

Your Genomic DNA Test results will arrive in about a month. Your health care provider’s office will contact you when they are available to review with your provider.

Thank you for helping us make this process a success!

Sincerely,

The UVM Health Network Genomic Medicine Program and the UVM Medical Center Family Medicine Group
