

Mycobacterial Identification CPT Change

C. Wojewoda, MD
Medical Director
Microbiology
Phone: 847-5140

On June 24, 2019, the Microbiology Laboratory will change the CPT code used for Mycobacterial identification from CPT 87149 to CPT 87118. This is due to a change in the methodology for Mycobacterial identification from probe technology to Vitek Mass Spec (MALDI-TOF) for the rapid identification of microorganisms.
